Vatra INU (VATR) is an ERC-20 token created within the Ethereum ecosystem. Due to the project's intention to be permanent, the well-established Ethereum ecosystem, which has been in existence for nearly 10 years, was preferred over new generation smart contracts. As a community token primarily held in personal wallets (HODL), there is no concern about transfer fees.

The table above indicates the following:

- **Pre-Sale:** The total amount available for sale during the ICO.
- **Market Making:** The total amount to be placed as sell orders on the market after the pre-sale listing.
- **Partnership:** The total amount set aside for potential listing and partnership scenarios, subject to community approval.
- **Airdrop:** The total amount reserved for campaigns planned to be carried out with community approval.
- **Founders:** The total amount allocated for founders at the beginning of the project.

# Pre-Sale - Terms

---

1. An investor can purchase a maximum of 100,000 VATR and a minimum of 10,000 VATR in all pre-sale tiers, including the maximum and minimum amounts.
2. For the planned pre-sale within the given dates, it is assumed that all supply will be exhausted within 24 hours of each pre-sale day. If all supply is not sold within 24 hours at any pre-sale tier, the sale of the next tier will not begin until the supply in that tier is completely sold. The sale of the next tier will start two days after the tier has been completely sold.
3. If any pre-sale phase is not completely sold within 15 days, the pre-sale process will end, and all unsold VATR from the total pre-sale supply of 200,000,000 VATR will be burned on the contract before listing.
4. The pre-sale will be conducted in Turkish Lira (TL) on the Bzexam cryptocurrency exchange.
5. No buying commission will be applied by the Bzexam exchange during the pre-sale process.
6. Details such as lower limit, upper limit, phase end, and start are to be implemented by the Bzexam exchange. To avoid any issues during these implementations, it is recommended that users who will trade via the mobile application have the latest version of the application.
7. VATR deposit and withdrawal operations will be activated after the completion of the pre-sale process.
